DETAILED ACTION

Allowable Subject Matter

1. Claims 1-23 allowed.

The following is an examiner's statement of reasons for allowance: Even though the prior art references of Taiani and Fehr et al. teach some of the claimed invention, they do not sufficiently teach the combination of the inner and the outer sleeve wherein the inner sleeve is formed from a profile element that extends in the manner of a coil as a unitary helical band with a mating protrusion and groove on opposite sides, and the outer sleeve provided for axially retaining the profile element. After a supplemental search of the prior art, it is ultimately found that the applicants' invention is a novel and non-obvious improvement over the prior art, and is therefore allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to ALEX W. MOK whose telephone number is (571)272-
